25X1 1. Comment. The westbound damaged cars listed in the report were part of the 20,000 former German freight cars re-purchased from the U.S.S.R. by the East German railroad administration. The east-bound wheel sets will be used by these cars on the German standard-gauge railroad system. Prior to 30 September 1952, 3,650 cars had been returned.
